

# BEST HOUSEBOATING COVES & CAMPS

VISIT WEBSITE

Although many of our returning guests have found a lakefront home to be more appealing to a houseboat, for years we loved houseboating. The red circled areas above represent what we believe are the better places to anchor the boat for the night. Some of these areas are only good when the lake is higher. In general, the coves change as the lake level changes so there is always somewhere new to stay no matter how many times you have been to this wonderful lake.
